

TITLE I

MILITARY PERSONNEL

Funds appropriated under this title provide the resources required for basic pay, retired pay accrual, employers' contribution for Social Security taxes, basic allowance for subsistence, basic allowance for housing, special and incentive pays, permanent change of station travel, and other personnel costs for uniformed members of the Armed Forces.

The President's fiscal year 2008 budget requests a total of \$105,403,698,000 for military personnel appropriations. This request funds an Active component end strength of 1,326,400 and a Reserve component end strength of 837,900.

SUMMARY OF COMMITTEE ACTION

The Committee recommends military personnel appropriations totaling \$105,522,341,000 for fiscal year 2008. This is \$118,643,000 above the budget estimate.

The Committee recommends funding an Active component end strength of 1,371,400 for fiscal year 2008, an increase of 45,000 above the budget estimate. The Committee recommends funding a Reserve component end strength of 837,900 for fiscal year 2008, the same as the budget estimate.

Committee recommended military personnel appropriations for fiscal year 2008 are summarized below:

## MILITARY PERSONNEL OVERVIEW

The Department of Defense budget requests \$105,403,698,000 for the military personnel pay accounts for fiscal year 2008; an increase of \$5,540,821,000 or 5.5 percent over the current enacted amount of \$99,862,877,000 excluding supplemental appropriations. Significant features of the budget request include the following:

*Active Component End Strength.*—The Committee supports the Active Component end strength levels as recommended in S. 1547, the National Defense Authorization Act for Fiscal Year 2008. For the Army, this includes an end strength increase of 13,000 above the fiscal year 2007 authorized level and 36,000 above the President's request for a total end strength of 525,400. For the Marine Corps, this includes an end strength increase of 9,000 above the fiscal year 2007 authorized level and the President's request for a total end strength of 189,000. These increases support Defense Department plans to grow Army and Marine Corps forces to better sustain operational tempo and relieve strain on current units. The Committee also supports Navy and Air Force requested end strength reductions of 12,300 for the Navy for a total end strength of 328,400 and 5,600 for the Air Force for a total end strength of 328,600.

*Reserve and Guard End Strength.*—The Committee supports the Selected Reserve end strength levels as requested in the President's budget and as recommended by S. 1547, the National Defense Authorization Act for Fiscal Year 2008. For the Army Reserve, this includes an end strength increase of 5,000 above the fiscal year 2007 authorized level for a total end strength of 205,000. For the Army Guard, this includes an end strength increase of 1,300 above the fiscal year 2007 authorized level for a total end strength of 351,300. These increases support Department of Defense plans to grow Army Reserve and Army Guard forces in an effort to reduce the frequency of mobilizations for reserve personnel. Consistent with active duty Navy and Air Force manpower reductions, the budget requests 3,500 fewer reservists for the Navy Reserve, 7,400 fewer reservists for the Air Force Reserve, and an end strength reduction of 300 for the Air National Guard. The Committee supports these adjustments.

*Pay Raise.*—The Committee has included funding to support a 3.5 percent increase in basic pay effective January 1, 2008 for all military personnel. This increase is consistent with S. 1547, the National Defense Authorization Act for Fiscal Year 2008, and is 0.5 percent above the budget request.

*Recruiting and Retention.*—The Committee is aware of the challenges faced by the services in recruiting and retaining quality personnel and is pleased that many services have improved recruiting efforts and continue to meet retention goals. However, some components have significant recruiting and retention challenges ahead due largely to the Army and Marine Corps initiatives to increase their end strength.

In addition to proposed end strength increases, the Army has a significant shortage of mid-level officers and must continue to retain mid-level enlisted personnel under strain from the high operational tempo. These soldiers, with years of experience, play a vital

role in the daily operations of the Army at home and in Iraq and Afghanistan. The Committee urges the Army to continue to focus on mid-level officer and enlisted retention.

Despite recent improved recruiting efforts, the Army Reserve continues to fall short of its annual recruiting goals and will finish fiscal year 2007 significantly under the authorized end strength level. While the Committee is hopeful that recently implemented recruiting initiatives will continue to improve the Army Reserve's recruiting efforts, the Committee urges the active duty Army and Army Reserve to reassess the efficacy of the unified recruiting command in fulfilling the recruiting needs of the Army Reserve.

In recent years, the Navy Reserve has also fallen short of its recruiting and retention goals, but additional funding redirected to these efforts is helping the Navy Reserve fulfill its recruiting and retention mission. The Committee notes with concern that the fiscal year 2008 budget request funds recruiting and retention programs at significantly lower levels than are being spent in fiscal year 2007. Therefore, to continue the Navy Reserve's recruiting and retention gains, the Committee has realigned funding within the Navy Reserve account to focus on recruiting and retention efforts.

*Reserve Component Budget Structure.*—In fiscal year 2007, Congress extended testing of a consolidated budget structure for the reserve component's military personnel accounts. The Committee recognizes the advantages of the single budget activity format in providing additional spending flexibility to the reserve components. This flexibility is particularly helpful in allowing the reserve components to respond to evolving mobilization and training needs resulting from operations in Iraq and Afghanistan. Therefore, the Committee supports continuing the consolidated budget structure test for an additional year, with the understanding that the Department will submit a semi-annual detailed report of internal reprogramming action similar to the report provided in fiscal years 2006 and 2007, and that the reserve components will keep the congressional defense committees apprised of any significant financial issues that may develop between reports. Reports shall be submitted 30 days following the end of the second quarter and the fiscal year.

The Committee notes, however, that since the creation of the consolidated budget structure, significant internal realignments have occurred within the reserve components' personnel accounts. The Committee urges the reserve components to submit future year budgets that are more closely aligned with recent spending patterns. For fiscal year 2008, the Committee has shifted funding from activities where requested funding was significantly above recent spending levels to other activities within the same account where additional funding needs were identified.

*Families First.*—The Committee is supportive of the Families First initiative, a program intended to improve the quality of service provided to military personnel and their families during permanent change of station moves. However, the Department of Defense has not provided the services with adequate guidance on how to budget for the increased moving costs resulting from the fiscal year 2008 implementation of Families First. The Committee directs the Secretary of Defense to work with the services to provide more de-

tailed guidance on the costs associated with Families First and to submit a report to the congressional defense committees detailing the projected annual costs, by service and appropriations account, of implementing Families First in fiscal year 2008 and through the Future Years Defense Plan [FYDP]. The report shall also specify which portions of the Permanent Change of Station budget activity are likely to experience cost increases due to implementation of the initiative. This report shall be submitted by February 15, 2008.

*Authorized End Strength.*—A Government Accountability Office [GAO] comparison of current personnel strength projections versus those included in the fiscal year 2008 budget request indicates that the active duty Navy and Army Reserve should have fewer service members in fiscal year 2008 than budgeted. Since less funding is required in these accounts, the Committee recommends a reduction of \$23,761,000 for Military Personnel, Navy and \$60,170,000 for Reserve Personnel, Army.

*Unobligated Balances.*—While the services have made significant progress in reducing the percentage of unobligated funds remaining within their military personnel accounts, a GAO analysis of past year obligation rates continues to show a trend of underexecution for some components. Therefore, the Committee has determined that some active duty and reserve components' fiscal year 2008 military personnel budget requests are overstated and can be reduced. Thus, the Committee recommends a reduction of \$90,300,000 to the military personnel accounts.
